## AREA OF USE

The IP65-rated GAMMA LED luminaire family is designed for reliable general lighting in dusty and humid environments such as covered parking lots, washrooms, industrial facilities, and public service areas. Installation is simplified by an accessible compartment with a folding lid on the back of the luminaire, allowing electrical connections without disassembling the product. Additionally, the color temperature can be easily adjusted during installation via DIP switches, offering options of 3000K, 4000K, or 6500K to suit different lighting needs.

## BASE MATERIAL

**Housing of the luminaire:** injection molded polycarbonate (PC).

**Diffuser:** opal polycarbonate (PC) with UV resistance additive.

**Cable routing:** through cable gland.

## INSTALLATION

The luminaires can be mounted onto ceilings.

Ordering code	Product name	Lumen output (lm)	Efficiency (lm/W)	Power consumption (W)	A (mm)	C (mm)	D (mm)	Unit Weight (kg)
70 101 000 518	GAMMA LED-10	900	90	10	220	65	204	0,5
70 101 000 519	GAMMA LED-20	1800	90	20	280	71	263	0,7
