

SIMOTRADE

LIGHT IS OUR LIFE

Corporate brochure

At Simotrade Kft., we build on 30 years of experience in the production of lighting fixtures, as a Hungarian manufacturer in the EU. We give you a wide range of competitive and cost-effective LED products, the most modern solutions in office and industrial lighting tailor made to your needs, and fast responses to all your requirements.

Our mission

A significant Hungarian company known in Europe, Simotrade Kft. manufactures and sells own-designed, unique lighting systems, using high quality components and parts. Our goal is to react to all our clients' needs in a fast, flexible, and efficient manner, backed by our well-trained team of professionals, strong, warranty-based service, and financial background.

Our vision

A significant manufacturer and distributor in the Hungarian lighting market with local ownership, acting as an innovative, trustworthy, and partner-focused market player, known at home as well as in Europe. A manufacturer with fast reaction to individual requirements, and a producer of top-quality products.

Who we are

- One of the most important lighting fixture manufacturers in Hungary
- Owned by a Hungarian group of investors, specialised in lighting
- EUR 4.5 million net turnover per year
- 190,000 pieces of own products per annum
- More than 300,000 pieces of semi-manufactured or final products made to order
- 150 partners in the EU
- 100 employees
- 3 hectares of area
- 9000 m² of manufacturing site with offices

From tradition to innovation

Simotrade Kft. was established in Simontornya by private persons in 1992, and has since become one of the most important luminaire manufacturers in Hungary. We offer a wide range of LED products based on current market trends. Our aim is to help protect the environment with our energy efficient and long-life luminaires, 50% of which are sold in the EU. We are proud to have the trust of our partners by supplying them with a warranty-based service, with replaceable and modular accessories, and to have the whole production process under our control: from design through metal works, to assembly.

What we build on

- Modern, computer-controlled machinery (SALVAGNINI P1, DURMA)
- Dedicated professionals
- Fast and highly precise metal processing
- Short production series on request
- Up-to-date power coating as per buyers' choice
- First class quality, meticulous assembly
- ISO 9001:2015 and ESG certificate

Stability, renewal and development

Simotrade Kft. has very recently undergone a change of ownership. The new Hungarian owners specialised in lighting aim to continue supplying existing and new Hungarian and foreign partners according to market expectations. Our company will keep on developing and producing our own product ranges, together with providing fast and cost-efficient solutions to our wholesalers in the industrial segment. During our journey of renewal, we strive to offer unique lighting schemes complying with individual demands within the project business, including smart and energy efficient systems. We wish to remain the suppliers of metal components for companies like Signify, AKA Lighting and IBV.

What we offer:

- The most up-to-date electrical components such as Tridonic, Osram, Vossloh, TCI, Wago
- The newest technological developments in optics (LEDIL) and lighting control systems (NFC, DALI)
- The assistance of our professional team
- European quality manufacturing technology
- An exceptional laboratory for light measurements

Let us give you the best results of our continuous innovations and developments within the following segments:

Logistics & Industry

Trunking system
Highbays
Weatherproofs
Canopy
Street lanterns

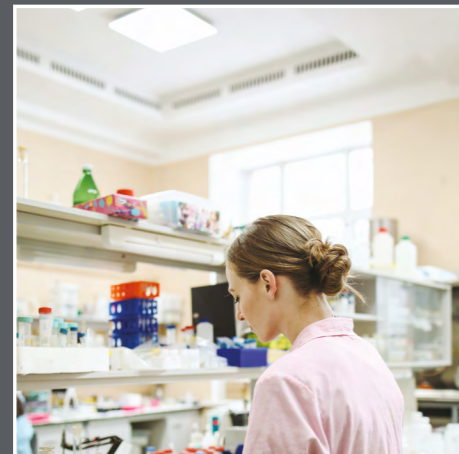

Office

Panels
Suspended linear D/I
Freestanding D/I
Downlights
Bulkheads

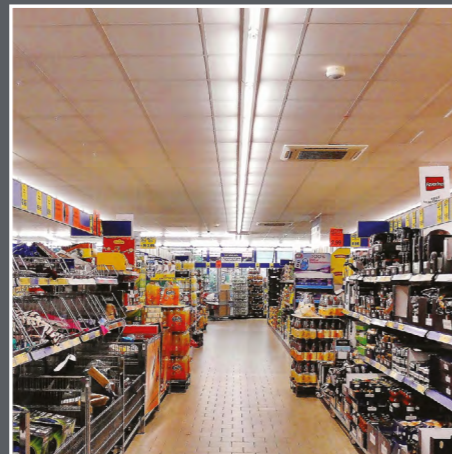

Education

Surface asymmetric
Linear lighting
Sportsbays
Floodlights

Healthcare / Cleanroom

Recessed and surface lighting
IP65/UGR19 cleanroom lighting
Germicidal
Bed lamps

Retail

Trunking system (with spots and wallwasher optics)
Display lighting (tracklights)

Our productions halls

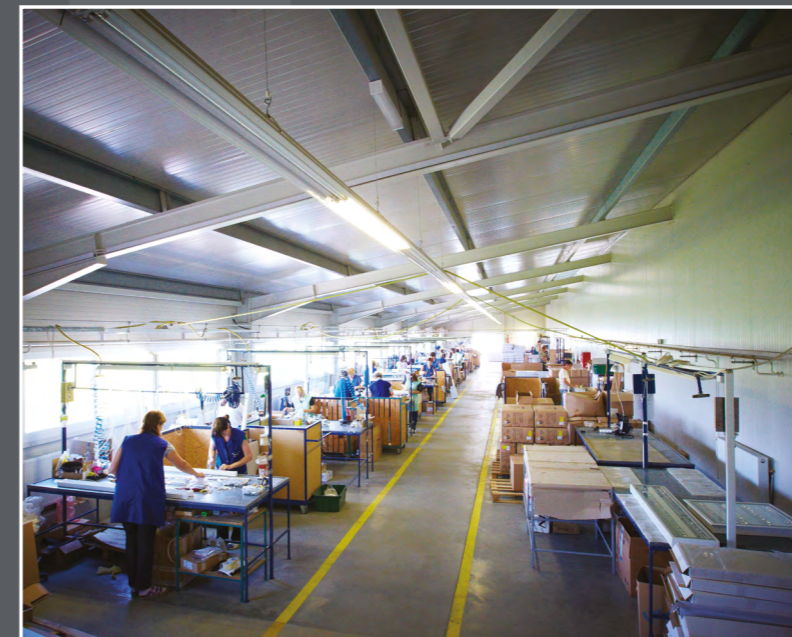

Metal processing hall

ASTRA-LM5 laser cutter
DURMA plate shears
DURMA laser cutters
DURMA hole punchers
DURMA plate-bending machines
SALVAGNINI P1 panel bender
Spot welding, rolling, edge bending machines
DIGÉP 25 T press machine
DIRINLER 60 T press machine
DIRINLER 80 T press machine
Rolling line

Painting plant

Painting with electrostatic powder coating technology.
Products are prepared for coating via washing, ensuring the forming of a phosphate layer, double rinsing and drying.
Powder coating according to RAL colour code.

Assembly hall

Fast and precise assembly in groups of 2, with well-trained and experienced professionals.
